

PHASE CHANGE SOLUTIONS™

Purpose

Phase change materials (PCMs) are **smart substances** in a prefabricated blanket form, which transition from solid-to-gel states both **optimising and maintaining a comfortable temperature.**

Effectiveness

Associated HVAC cost savings impact of **25% to 35%**

Produces a **20 to 25% reduction** in air recycling

Savings are achieved upon installation with **no further maintenance required**

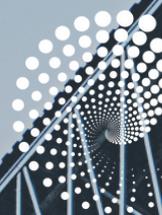

Credibility

Certified Organic Product with low environmental impact using plant-based materials

Aligned with the **UN Sustainable Development Goals (SDG's)**

Formulated and tested for long life (100+ years)

Partnered with GAF North Americas
